

Hello my name is Virginia Bradshaw and I am a retiree of Fulton County public works department where I worked for 20 years. I was hired under a special program where Fulton County were in the process of dissolving the contract between the State department to no longer utilize state prisoners for road maintenance and to hire permanent employees to maintain the right-a-ways. During my 20 years I was promoted 4 times starting as a laborer I and retiring as an Administrative Coordinator I. Supervising the transportation office under the leadership of Wyvern Budram.

If elected to this position I would be of the same mind as I came through the doors as a new employee determined to be the best representative for Fulton County and its citizens. So as a board member my first priority would be to its members.

My role as a board member would start with a thorough understanding of the plan guidelines to ensure that I am always on track and in sync with the over goals.

I've served as a senior Pastor for the last 13 years at a local church here in Atlanta and coupled with 40 years of work experience, I definitely would bring certain strengths to this pension board that would be a beneficial service:

- I have investment experience
- I understand reconciliation of accounts
- I understand and prepare budgets
- I'm able to make the decision based on integrity, knowledge
- I'm open minded to change setting goals and objectives
- I'm able to assist and serve wherever needed
- I'm able to review and audit

I am the perfect candidate for this position.
