

Pre-65 (Non-Medicare) Retirees Tobacco Cessation Program Update

If you attested that you were a tobacco user during open enrollment and pledged to enroll in a cessation program, you must complete the tobacco cessation program requirements with your respective medical carrier (Anthem BCBS or Kaiser Permanente) by **May 31, 2022**, to avoid the \$50 monthly tobacco-use surcharge.

Information is being mailed and emailed to the respective retirees/beneficiaries with details about the tobacco cessation program requirements.
